### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Previously, claims 1-9 were rejected under 35 U.S.C. 102(e) over Sato et al (US 2002/0009666A1) because Sato teaches a resin which includes an ethoxymethyl acrylate unit, and Sato's such resin was teaching the polymer of previous claims 1 and 3. In their amendment of December 10, 2003, applicants narrowed the scope of their claim 1 in such a way to overcome the previous rejections over Sato et al (now, R<sub>1</sub> has to be a *cyclic* alkyl group having 5-30 carbon atoms and also, the repeating unit m has to be present). Since Sato does not teach or suggest the inventions of presently amended claims 1 and 3, the previous rejections on claims 1-9 over Sato et al are hereby withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
